

This is some C++ code

```
1 // Main function
2 int main(int argc, char* argv[])
3 {
4     std::string hello = "hello";
5     return hello.size();
6 }
```

This is a terminal

```
1 # Some code
2 cd hello
3 rm world
4 mkdir helloagain
5 rm worldagain
6 ls -lsrh
```

This is some C++ code

```
1 // Main function
2 int main(int argc, char* argv[])
3 {
4     std::string hello = "hello";
5     return hello.size();
6 }
```

This is some C++ code

```
1 // Main function
2 int main(int argc, char* argv[])
3 {
4     std::string hello = "hello";
5     return hello.size();
6 }
```
